Workshop on Statistical Computing with R

(March 15-24, 2018)

Computation is an integral part of several streams of study. Moreover, Statistical Computation and the graphical representation are required in almost all fields of research. In recent years, R programming emerged as a programming language and software environment for statistical computing and graphics. This programming language is available on the web without any cost and is supported by the “R Foundation for Statistical Computing”. In the current decade, a large number of statistician, data scientist and computer scientist have contributed to R in order to make it a more powerful and strong environment for statistical computing. Resultantly, more than five thousand additional packages are developed by scientists, which are compatible with R.

The aim of this workshop is to train researchers of various disciplines in Statistical computation via R software. Since we have limited lab facility, we propose to fix the optimum number of candidates to forty only. Participation fee for this ten days program is proposed to Rs 1500/- per candidate. Registration form will be available on university website. Admission will be on ‘first come first serve’ basis.

Application form **Workshop on Statistical Computing with R**

1. Name of Applicant (in BLOCK letters) :
2. Father's Name :
3. Status/ Designation :
4. Department :
5. Local Address :
6. E-mail Address :
7. Telephone Number :
8. Date of Birth :
9. Nationality :
10. State :
11. Sex (Male/ Female) :
12. Operating systems known :
(*MS-DOS/ MS Windows/ Linux/ Unix*)
13. Level of knowledge of computers :
(*Good/ Moderate/ Nil*)
14. Access to Computer :
(*Lab/ Home/ Both/ No access*)
15. Prior knowledge of R / Statistics :
16. Reasons for joining the course :

Signature of the Applicant

Signature of Supervisor

Signature of the
Head of the Department
(with seal)
