***Notice***

Workshop on  $\text{\LaTeX}$  and  
other open source software

Like every year this year also the DST-Centre for Interdisciplinary Mathematical Sciences is organizing a workshop on  ***$\text{\LaTeX}$  and Other Open Source Software***. The workshop will be held from **October 23, 2017 to November 3, 2017 from 9.00 am to 10.30 am**. Admission to the workshop will be on the basis of ‘first come first serve’ and maximum number of seats are 40 only.

**For whom :** The workshop will be beneficial to those students who will be submitting their Ph.D./ Postgraduate dissertation as part of their studies.

**What is  $\text{\LaTeX}$ :**  $\text{\LaTeX}$  is a markup language like `xml`, `html`, created by Laslie Lamport based on  $\text{\TeX}$  language written by Prof. Donald E. Knuth, a renowned mathematician of Stanford University, for creating mathematical documents. Many Scientific journals accept manuscript only if the document is typeset using  $\text{\LaTeX}$ , viz., American Mathematical Society, Elsevier etc. Using  $\text{\LaTeX}$ , Table of Contents, List of Figures, List of Tables and Index can be created in a jiff. In conjunction with  $\text{\BibTeX}$  References can be changed from one format to another in minutes.

**Expected skills :** As it is a hands on training programme for creating documents, good keyboard skills and basic computer knowledge like installation of computer programmes, creation of folders etc. is desirable.

Interested students may contact the Office of the DST-CIMS for further details.
