

One Week

Online Faculty Development Programme on **LIFE SKILLS FOR EDUCATORS**

2–6 November 2020

Overview

There is a growing awareness of the rapidly changing social, economic, and political structures among educators. Simultaneously, there is also a growing need to keep pace with demands and challenges caused by these transformations. Realising this need for sustainable upskilling, UNICEF, UNESCO and WHO have listed the ten core life skill strategies and techniques that need to be acquired by individuals in order to guide learners cope with their existential concerns with ease and grace. There is also the need to enable learners to be confident about their thinking skills, interpersonal skills, and emotional skills leading to their holistic development.

This programme has been designed to introduce participants to a group of research skills, psychosocial and interpersonal skills, and digital skills in an experiential setting with a view to developing in them the requisite capacity for optimal performance. The core life skills included in the programme are essentially those skills that help develop competence and promote mental wellbeing among participants and prepare them for the challenges of personal and professional life.

The programme contents will be delivered not through the traditional “information based” approach, but through an “experiential and situational” approach. The delivery approach will be customised to address behaviour change through changes in information processing and attitude.

Focus Areas

- Winning Communication Skills
- Relationship Skills
- Leadership Skills
- Research Skills
- Digital Skills

Objectives

- Help participants understand the importance of life skills for a successful life and career.
- Equip participants with the essential people and social skills and to enable them to cope with the everyday challenges.
- Help participants build confidence, foster critical and creative thinking, and empower them to develop functional mindsets through leadership skills.
- Empower participants to hone their research skills
- Enable participants to manage their holistic wellbeing for sustainable success.

Teaching Learning Centre, IIT (BHU)

A Centre named 'Teaching Learning Centre (TLC)' was initiated by the Institute in July 2013 to strengthen the teaching environment of the institute and to organize several programmes to enhance teaching-learning processes. It covers all aspects of teaching, pedagogy, laboratory projects, assessment, course delivery, course design, e-learning, sharing best practices in teaching-learning, faculty development programmes, etc.

This FDP is supported by the "Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching (PMMNMTT)" scheme of Ministry of Education, Government of India.
